

About the job

It's fun to work in a company where people truly BELIEVE in what they're doing!

Job Description

Our team is seeking an passionate Product Manager to join us as we create and deliver mission critical services and processes to enable Traveloka Experience, specifically in our Supply side.

As a Product Manager you will take a customer first and data driven mindset to drive, decide, coordinate, and execute projects related to Experience, in collaboration with multi-discipline feature teams including user experience experts in our Design team, our passionate developers and Engineers, and the rest of Product and Operations Team.

In this role, you will:

- Navigate various data types, technical, design, and system map to simplify complex process and touchpoints
- Translate product strategy into product plan, detailed requirements and prototypes
- Prioritize and define product roadmaps, design documents and proposals, manage product backlog, make quick decisions and coordinate the team to release quality products within planned timelines based on business and customer impact
- Act as a product evangelist to build awareness and understanding about product, its scope and processes, impact and risk for all stakeholders, including customers
- Monitor the key metrics of the products and features owned to ensure effectiveness and efficiency at all times
- Work closely with mission team in conducting regular analysis and deep dive on the products and features' performance, and improvements when necessary Identify issues and improvement opportunities that can push the products and features' performance forward
- Advocate customers for internal stakeholders to ensure high impact and functioning products and features that would help our customers do travel their way

Requirements

To be successful in this role, you must possess:

- Bachelor's degree in Computer Science, Computer Engineering, or other relevant fields (Mathematics, Electrical Engineering, IT, Chemistry, Physics, Engineering Science, STEM) from reputable universities with minimum GPA of 3.5/4.0.
- A Master's Degree in the aforementioned field is a plus.
- At least 4 years working experience. Previous experience in Product Manager track and experience in the travel industry, other technology company, or global consulting field is a preferable.
- Good understanding of product management / development, preferably in the internet space
- Excellent analytical skills and ability to interpret complex data to drive decision-making.
- Passion in data-driven product development and making the world better through technology.
- Strong project management skills, with the ability to manage multiple initiatives simultaneously and deliver results within deadlines.
- Demonstrate ability to collaborate effectively with cross-functional teams and stakeholders at all levels.
- Excellent communication skill in English, both written and verbal, with the ability to present ideas and influence stakeholders effectively.
- Excellent analytical skills and strong intuitions of user behaviors.
- Ability to quickly learn and absorb new knowledge in the fast-changing and dynamic industry, and synthesize learnings into strategic growth levers that generate tangible business impacts.

If you like wild growth and working with happy, enthusiastic over-achievers, you'll enjoy your career with us!
